

Coders' Dictionary Add-On

Online Medical
Coding Software

The Optum® Coders' Dictionary helps you understand health care terminology from a coding and revenue perspective. Clinical terms are clearly defined and, in many cases, tied to codes (CPT®, HCPCS, ICD-10-CM/-PCS) where it makes clinical sense.

Additionally, Optum Coders' Dictionary terms are highlighted in code and lay descriptions for one-click access to definitions. This unique dictionary was developed to meet the specific needs of medical coders, HIM professionals, billing and reimbursement specialists, analysts, students, adjudicators and more.

Key features and benefits

- Understand medical terminology from a coding perspective and clinical knowledge to better understand these important terms.
- Many codes include common codes for these medical terms.
- Terms are searchable in an index format or are searchable just by clicking the term when it is contained in a code or lay description.

Item number:

WA05

Price:

\$75.00 per user, multi-user pricing available

Search results page

Search various medical coding terminology to quickly find reference definitions.

Optum Coders' Dictionary terms are integrated with code and lay descriptions. Any hyperlinked code brings back the definition of these terms.
